Billing Overview

Last updated : 2024-12-24 21:42:24

HTTPDNS is daily pay-as-you-go by the number of DNS queries. DNS queries performed from 00:00:00 to 23:59:59 on a day will be billed at 8:00:00 the next day.

Pay-As-You-Go

Calculation method

The number of HTTP DNS queries encrypted with DES under the current account for each natural day is calculated as follows:

1 HTTPS DNS query = 5 HTTP DNS queries encrypted with DES

1 HTTP DNS query encrypted with AES = 3 HTTP DNS queries encrypted with DES

Note:

The number of DNS queries is calculated per domain. One HTTP DNS request for one domain is recorded as one DNS query, and one HTTP DNS request for N domains is recorded as N DNS queries. For HTTPS DNS requests, the quantity will be $N * 5$.

Billing Mode	Cycle	Price
Pay-as-you-go (postpaid)	Daily	0.006 USD/10,000 queries

Pricing examples

For example, with the HTTPDNS service, if the number of DNS queries over the HTTP protocol with DES encryption is 1 million on the first day of this month, and the number of DNS queries over the HTTP protocol with DES encryption is 0.8 million and the number of DNS queries over the HTTPS protocol is 0.2 million on the second day of this month, then the number of HTTP DNS queries with DES encryption is 1 million on the first day and $0.8 \text{ million} + 5 * 0.2 \text{ million} = 1.8 \text{ million}$ on the second day.

The total pay-as-you-go fees are $0.006 \text{ USD}/10,000 \text{ queries} * (1 \text{ million} + 1.8 \text{ million}) = 1.68 \text{ USD}$.

Note:

If you encounter problems when using the product, contact [online customer service](#) for assistance.

Payment Overdue

Last updated : 2024-12-24 21:42:24

Note:

If you are a customer of a Tencent Cloud partner, the rules regarding resources when there are overdue payments are subject to the agreement between you and the partner.

Service Suspension Due to Overdue Payments

When your Tencent Cloud account has overdue payments, you will be notified of this by email or SMS. Given factors such as holidays, a 7-day grace period will be granted, and if you fail to make the payments within this period, the HTTPDNS service will be suspended on the 8th day.

Service Resumption

After the HTTPDNS service is suspended, your account ID and configuration information will be kept for 6 months, during which you can resume the service at any time.
