Billing overview

Billing prerequisites

The earlier version of the Captcha will be billed based on the **number of server-side ticket verifications** .

The new version, 202412 - (TJNCaptcha-global.js), will be billed based on the **number of verifications initiated after users respond to a verification query** .

Free trial

When new users log in to the [Captcha console](#) and activate the service, they can get a free quota of 10000 times of ticket verification.

Note:

Each Tencent Cloud primary account can get the free quota only once.

Billing mode

After the free quota is used up, you will be billed on a **postpaid daily** basis according to our cumulative tiered pricing structure.

Pricing Range Table

Ticket Verifications (Times/day)	USD/Time
(0,100]	0.005
(100,1000]	0.002
(1000,10000]	0.0008
(10000,100000]	0.0002
(100000,1000000]	0.0001
> 1000000	0.00005

Billing example

For example, if the number of ticket verifications on a day is 200, according to the pay-as-you-go tiered price table, some ticket verifications fall within the range of (0,100], and some fall within the range of (100,1000]. Based on the

cumulative tiered pricing mode, the fees for that day would be $0.005 \times 100 + 0.002 \times 100 = \text{USD } 0.7$. The pay-as-you-go bill will be output the next day and the fees will be deducted directly from the account balance.

Overdue payment policy

Service suspension upon a 7-day overdue payment: If your account has an overdue payment for more than 7 days, the Captcha service will be suspended. After the service is suspended, you will be unable to use the Captcha console and calling the ticket verification API will return an error.

Note:

If you are a customer of a Tencent Cloud partner, the rules regarding resources when there are overdue payments are subject to the agreement between you and the partner.
