Activating TMT

Log in to the [TMT console](#), agree to the SLA, and activate the service.

- Currently, TMT only supports postpaid billing based on the service usage.

Billing Cycle

The TMT service is billed per day, with a bill issued and settled each day for the previous day's usage.

Pricing

Published price

- Text translation is billed based on the characters translated every day, and a stepwise pricing mode applies.
- The published price of text translation is 10 USD per 1 million characters.
- Each Chinese character, letter, punctuation mark, and space is counted as a character.

Payment Overdue

Last updated: 2023-12-20 20:59:13

Note:

If you are a customer of a Tencent Cloud partner, the rules regarding resources when there are overdue payments are subject to the agreement between you and the partner.

If your account has an overdue payment, the TMT service will be suspended 24 hours later.

If you receive an overdue payment notification, go to the [Top-up Center](#) in the console and top up your account in time to ensure the availability of your service.

Note:

A bill for the current month will be generated within the first three days of the next month, and after it is settled, an amount equal to the number of calls in the current month x **published price** x 100% will be frozen in your account as the estimated fee for the next month. This frozen amount will be unfrozen during settlement in the next billing cycle.
