## Billing Overview

Last updated : 2025-03-07 17:07:27

The Digital and Intelligent Medical Imaging Platform (AIMIS) adopts a **prepaid mode**. The platform fee consists of three parts: cloud inspection resource fee, software licensing fee, and service fee:

You can log in to the [AIMIS Resource Purchasing Page](#) to purchase cloud inspection resources or AI resources. After the purchase, the cloud or AI resources will be credited to your platform account within 24 hours.

You can also log in to the [AIMIS Software Purchasing Page](#) to subscribe to SaaS software features. After the purchase is completed, the software feature authorization will be activated to the corresponding institution account within 24 hours.

You can also log in to the [Intelligent Medical Imaging Platform Service Purchasing Page](#) to purchase related services.

### Note:

As this product involves software-based medical devices, according to national regulations, an offline cooperation agreement must be signed before the first purchase.

## Cloud Inspection Resource Fees

For the cloud inspection resources used by users on the Digital and Intelligent Medical Imaging Platform, the platform offers two prepaid methods: **annual payment** and **pay-as-you-go**. The specific details are as follows:

All cloud inspection resources must be consumed within one year from the date of purchase, otherwise they will become invalid.

During the valid period, resources can be purchased in stacks, and the resources that are about to expire will be deducted first.

In case of arrears, the arrears resources will be offset first after renewal.

After the purchase is completed, you can view the available resources, used resources, and arrears resources of the current account on the platform management side.

Purchase Method	Billing Rules
Pay-as-You-Go Purchase	Valid period: within one year from the date of purchase Cloud inspection storage service duration: 1 year, 2 years, 3 years, 5 years, 10 years, 15 years Minimum purchase quantity for cloud inspection: 1,000 inspections
Purchase annually	Valid period: within one year from the date of purchase Cloud inspection storage service duration: user-purchased duration (years) Minimum purchase quantity for cloud inspection: 1,000 inspections

**Note:**

The minimum purchase quantity for all Cloud Check Service resources is 1,000 instances, and they are sold in multiples of 1,000.

When purchasing by duration, the minimum purchase is 1 year.

**Billing Example:**

A healthcare institution needs to purchase 15 years of cloud storage for 10,000 inspections:

If purchased by quantity, the final price = 10,000 inspections × unit price (USD/15 years)

If purchased annually, the final price = 10,000 inspections × unit price (USD/year) × 15 years

## AI Resource Access Expense

For the AI-assisted diagnostic review used by users on the Digital and Intelligent Medical Imaging Platform, the platform offers two methods: **pay-as-you-go purchase** and **one-time purchase**. The specific details are as follows:

Quantity purchase only supports online access, while one-time purchase is for offline delivery and deployment.

Resource packages purchased by quantity must be consumed within one year from the date of purchase, otherwise they will expire.

During the valid period, resources can be purchased in stacks, and the resources that are about to expire will be deducted first.

After the purchase is completed, you can view the remaining times, total number of times, and renewal records of the current account on the platform management side.

Purchase Method	Billing Rules
Pay-as-You-Go Purchase	Valid period: within one year from the date of purchase Delivery form: online access or API call Billing mode: per case review Minimum sales unit: 1,000 inspections Applicable product: Mimi AI Assistant (Large Language AI Report)
One-time purchase	Valid period: long-term Delivery form: offline delivery Billing mode: unlimited inspections Minimum sales unit: per product set

**Note:**

The minimum purchase quantity for pay-as-you-go resource packages is 1,000 instances, and they are sold in multiples of 1,000.

One-time purchases are currently not available online. If needed, please [contact us](#).

## Software Licensing Fees

For the software features used by users on the Digital and Intelligent Medical Imaging Platform, the platform offers two parts: basic software and optional software. The specific details are as follows:

All cloud software features are activated per organization.

Basic software is mandatory, optional software can be purchased as needed, and can be used long-term on the cloud after purchase.

After the purchase is completed, you can view the activated software features of the current organization on the platform management side.

Software Type	Required	Billing Rules
Basic Edition	Required	Usage valid period: authorized by subscription duration Minimum sales unit: A Complete Set (non-divisible) Sales features: inspection management, report management, image browsing, hospital management, doctor management, inspection management, cloud film configuration, report management, data management, log audit
optional feature Telemedicine	optional option	Usage valid period: authorized by subscription duration Minimum sales unit: per feature authorization Optional features (examples): patient imaging records (cloud film), advanced image browsing (3D, MPR, FUSION), remote diagnosis, remote consultation, remote ward rounds, remote teaching, data statistics, image quality control, log audit, mobile terminal, follow-up management, etc.

### Note:

All software licenses are activated per medical consortium, and multiple medical consortia require multiple licenses.

## Service Fees

AIMIS provides users with three parts: delivery service, maintenance service, and scheduled service. The specific details are as follows:

All services are provided to a single organization and must be used within one year from the date of purchase; otherwise, they will expire.

Delivery service and scheduled service are one-time payments, with user acceptance confirmation as the basis for service completion.

Maintenance service is a monthly subscription, effective during the valid period of the service purchased by the user, and automatically ends upon expiration.

Service Type	Billing Method	Service Content
--------------	----------------	-----------------

<p>Delivery service</p>	<p>one-time payment</p>	<p>Valid period: within one year from the date of purchase                  Service duration: one-time service                  Completion confirmation method: user acceptance confirmation                  Service Content: local delivery, remote delivery</p>
<p>Maintenance service</p>	<p>Monthly Subscription</p>	<p>Valid period: within one year from the date of purchase                  Service duration: user-purchased duration (years)                  Completion confirmation method: automatically ends upon expiration                  Service Content: local maintenance, local inspection, remote maintenance</p>
<p>Scheduled service</p>	<p>one-time payment</p>	<p>Valid period: within one year from the date of purchase                  Service duration: one-time service                  Completion confirmation method: user acceptance confirmation                  Service Content: customized human resource service</p>

# Purchase Method

Last updated : 2025-03-07 17:07:28

To use the Digital and Intelligent Medical Imaging Platform (AIMIS), you need to contact channel sales to complete the offline cooperation agreement. After that, you can place orders online or purchase products or resources offline. Below is a guide for placing orders online for AIMIS products. The specific steps are as follows:

## Resource Order Placement Guide

1. You can log in to the [Intelligent Medical Imaging Platform Resource Purchasing Page](#) to place an order online.
2. Select the resource amount of the cloud inspection service package based on business needs:  
Pay-as-you-go: Select the quantity of resource packages.  
Annual purchase: Select the service duration.
3. After checking the terms of service, click **Purchase Now** to go to the order confirmation page.
4. After confirming the order is correct, click **Make Payment** to pay the amount.
5. After placing the order, you can view the latest resource package status on the AIMIS management end.

## Software Order Placement Guide

1. You can log in to the [AIMIS Software Purchase Page](#) to place an order online.
2. Select the software feature authorization based on business needs:  
Required software: Cloud imaging software (basic version).  
Optional software: Remote diagnosis, remote consultation, image browsing, data statistics, etc.
3. After checking the terms of service, click **Purchase Now** to go to the order confirmation page.
4. After confirming the order is correct, click **Make Payment** to pay the currency.
5. After placing the order, you can view the software feature authorization status on the AIMIS management end.

## Service Order Placement Guide

1. You can log in to the [Intelligent Medical Imaging Platform Service Purchase Page](#) to place an order online.
2. Select the required service content based on business needs:  
Delivery service, scheduled service: Select the service number.  
Maintenance service: Select the service number, service duration.
3. Order note: Please note your organization name. If AIMIS is activated, you can provide your organization ID, organization Token, etc.

4. After checking the terms of service, click **Purchase Now** to go to the order confirmation page.
5. After confirming the order is correct, click **Make Payment** to pay the currency.

# Arrears, Renewal, and Refund Instructions

Last updated : 2025-03-07 17:07:28

## Instructions on Arrears

**Overdue Notification:** When the available cloud check resources in the platform account are insufficient, the system will send an overdue notification to the business platform and management platform to notify users.

**Service Suspension Policy:** To minimize the impact of overdue payments on business, the services used will be suspended 24 hours after the overdue payment. At that time, users will not be able to upload new checks to the cloud. Checks that have been uploaded in excess will be treated as overdue, but checks already uploaded to the cloud and within the valid period will not be affected. You can still view and browse them normally.

**Recovery Policy:** When the account tops up sufficient resources, the overdue resources will be offset first. If resources are sufficient, the upload service will automatically resume.

## Renewal Instructions

Digital and Intelligent Medical Imaging Platform adopts a **prepaid mode**. Users need to repurchase or place order after using up the resources.

## Refund Instructions

Digital and Intelligent Medical Imaging Platform adopts a **prepaid mode**. After purchase, resources and software licenses are credited to the account. Online order placement does not support refunds, subject to the offline signed protocol.
