Billing Overview

Last updated : 2024-10-22 15:30:15

VPC offers the following features free of charge:

Basic features: VPC instance, subnet, and route table.

Other features: ENI, security group, network ACL, parameter template, [HAVIP](#), network probe, Classiclink, multicast, and broadcast.

Billable features and related products include cross-AZ data transfer in the same region, CVM, EIP, CLB, NAT Gateway, VPN Connection, and Cloud Connect Network.

Billing description

Cross-AZ data transfer in the same region: Outgoing traffic across AZs in the same region, including the same VPC and cross-VPC scenarios.

Billing Mode

Cross-AZ data transfer in the same region is billed by the traffic in a post-paid manner.

Calculate the cross-AZ outbound traffic in the same region (intra-VPC and cross-VPC), and generate the bill on an hourly basis.

From now till 00:00:00 (UTC+8), October 10, 2025, a 1000-TB free tier is provided per month for each account.

Fee calculation:

Hourly fee for cross-AZ data transfer in the same region = Outbound traffic x Unit price

The specific prices are as follows:

Billable item	Billing mode	Usage	Price (USD)
Cross-AZ data transfer in the same region (USD/GB)	Pay-as-you-go	≤ 1000 TB	Free of charge till 00:00:00 (UTC+8), October 10, 2025
		> 1000 TB	0.01

Billing of related products

You may need to pay for the following products used in combination with a VPC:

--	--

Product	Billing
Cloud Virtual Machine (CVM)	The usage of CVMs can incur charges for public network access. For more information, see CVM Billing Overview .
Elastic IP (EIP)	See EIP Billing Overview .
Cloud Load Balance (CLB)	See CLB Billing Overview .
NAT Gateway	See NAT Gateway Billing Overview .
VPN Connection	See VPN connection Billing Overview .
Peering Connection	See Peering Connection Billing Overview .
Cloud Connect Network (CCN)	See CCN Billing Overview .
Flow Logs (FL)	See Flow Logs Billing Overview .

Payment Overdue

Last updated : 2024-10-22 15:30:35

Note :

For customers of Tencent Cloud partners, please refer to the overdue payment policies in your contract with the Tencent Cloud partner.

This document describes the overdue payment policies for cross-AZ data transfer in the same region.

Fee for cross-AZ data transfer in the same region

Overdue alert

The fee for cross-AZ data transfer in the same region is deducted on an hourly basis. When the account balance becomes negative, the system will notify the Tencent Cloud account creator via SMS, email, and internal message. Please make the payment or top up the account in time.

Note:

Balance alert: This feature is disabled by default. To enable this feature, see [Enabling Balance Alert](#).

Overdue policies

The following policies are applied from the moment when your account balance drops to 0. For the first two hours, the cross-AZ connection remains available and the billing continues.

Note:

The fee of cross-AZ transfer in the same region is deducted on an hourly basis.

For example, the fee for cross-AZ data transfer in the same region during 00:00-00:59, October 8, 2023 is deducted at 01:00, October 8, 2023. Note that there may be a delay.
